The contents of this Presentation are not to be construed as legal, financial or tax advice. Each prospective investor should contact his, her or its own legal adviser, independent financial adviser or tax adviser for legal, financial or tax advice. Mr. John Astrup is the Company's qualified person for purposes of Canadian National instrument 43-101. Mr. Astrup is an employee of the Company and is not independent of the Company for purposes of NI 43-101. A complete description of data verification, exploration results and other technical and scientific information related to the Company's South African mineral projects is included in the report titled "Platmin Limited's South African Platinum Minerals Properties" dated May 15, 2006 and prepared by RSG Global which is available at www.sedar.com. Mineral resources that are not mineral reserves do not have demonstrated economic viability.

FORWARD LOOKING STATEMENTS

This Presentation contains "forward-looking information" which may include, but is not limited to, statements with respect to the future financial performance of the Company; the future price of PGMs (defined as an abbreviation for platinum group metals, being any one or more of, Pt, Pd, Rh, Os, Ir, and Ru); the estimation of mineral resources; the realization of mineral resource estimates; timing of the development of new deposits; mines and smelters, costs and timing of feasibility studies and the timing and receipt of approvals, licences, and conversions under South African mineral legislation. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or variations (including negative variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries and/or its affiliated companies to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, general business, economic, competitive, political and social uncertainties; the actual results of current exploration and development activities; conclusions of economic evaluations and studies; fluctuations in the value of United States dollars relative to the Canadian dollar or South African rand; changes in project parameters as plans continue to be refined; political instability; the effects of HIV/AIDS on labour force availability and turnover; delays in obtaining governmental approvals or financing or in the completion of development or construction activities, as well as those risk factors identified in the Company's publicly filed disclosure documents available at www.sedar.com. There may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements due to the inherent uncertainty therein.

COMES TO MARKET WITH LARGE ASSET PACKAGE

Total Resources On Platmin's Key Projects

Potential for leveraged value increase from increasing resources, uplift of indicated category to M&I and then conversion to reserves

PILANESBERG - PLATMIN'S PRIMARY PROJECT

- ❖ Comprises 25 portions of eight farms with total surface area of 14,511 ha adjacent to chrome mines and smelter
- ❖ Outcropping/near surface resources
- ❖ Potential for several open pit mines to extract UG2, Merensky and Pseudo reefs simultaneously feeding into a central concentrator
- ❖ Tuschenkomst and Ruighoek most advanced

Tuschenkomst - 260 drillholes and box cut trial mining ongoing for pit design data; bulk sample testing at local concentrator and pilot plant test work by Mintek underway

Ruighoek and the other prospects - 306 drillholes

- ❖ Infill drilling to upgrade resources
 - Exploration drilling at other prospects planned
- ❖ Integrated feasibility study underway
 - Trial mining complete
 - Flotation tests at local concentrator and Mintek
 - Anticipated completion of study by March 2007

M'PHATLELE - LARGE RESOURCE, HIGH NICKEL

----------	------	-----	-----	------

- ❖ “New order” conversion of Prospecting Rights received September 2006
- ❖ 8km strike length, 7 drill rigs end October
- ❖ Adjacent to Lonmin’s Limpopo PGM operations (Messina)
- ❖ Resource from near surface to 1,000m
- ❖ Base metal credits and high sulphide content in UG2 - good smelter feed
- ❖ Feasibility study planned to commence following upgrade of resources

DEVELOPMENT STRATEGY

- ❖ Platmin's goal is to become a significant producer of PGMs through the development and operation of several mines on its key projects

- ❖ Bring the key projects to production through a well defined and staged development program
 - Completing a feasibility study at Pilanesberg by March 2007
 - Advancing exploration and development at M'Phatlele, Grootboom and Loskop
- ❖ Ensure maximum flexibility with regards to smelting alternative
 - Maintain Platmin's operational independence
- ❖ Leveraging Platmin's experienced exploration and development team to identify and pursue additional expansion and acquisition opportunities
 - Focus on near-surface projects for further acquisition
 - Both adjacent to existing projects and new areas

INVESTMENT CASE

- ❖ **Company is newly listed after oversubscribed IPO**
 - Dual list in Toronto and London provides multi-market interest
 - Strong core shareholder base, including 3rd largest PGM producer
- ❖ **Platmin's management has relevant experience - Aquarius and Northam**
 - Proven business model - rapidly translate NPV to market capitalisation
- ❖ **Very few investment opportunities in PGM development companies**
 - Most of the Bushveld Complex is now locked up, new entrants rare
 - Platmin's goal is production, not asset sale
- ❖ **Fundamentals for PGM market are strong**
 - PGM's are the green metals - auto catalysts, fuel cells
 - Chinese demand increasing, including Pd jewellery
